

DESIGN RECORD

Station	_____ to _____	_____ to _____	_____ to _____	_____ to _____	_____ to _____
Length					
Grade %					
Top width (T)					
Depth (D)					
Peak discharge (CFS)					
Velocity (V)					
* Normal depth (capacity)					
Stone design D ₅₀					
See Exhibit 7–6 EFM					

Soil type(s) _____ Permissible velocity (V₁) _____ ft/sec

Retardance D for velocity _____ Max. permissible velocity 1:33 (V₁) _____ ft/sec

Retardance _____ for capacity _____ *Optional – for use with NEH–5 computer program

Type of outlet (describe) _____

Engineering survey notes attached? Yes []

Notes

Layout by: _____ Date: _____

PERFORMANCE RECORD (As Builts)

Station	_____ to _____	_____ to _____	_____ to _____	_____ to _____	_____ to _____
Constructed length					
Constructed grade					
Minimum constructed top width					
Minimum constructed depth					
Constructed capacity (CFS)					
Constructed velocity					
* Normal depth (capacity)					
Stone design D ₅₀					

Sketch (if not on engineering notes)

--

Check notes attached? Yes [] Seeding established? Yes []

Approx. Cu. Yd. stone installed: _____ Approx. Sq. Yd. geotextile installed: _____

Quantities checked by: _____ Date: _____

I hereby certify that this practice complies with the plans and specifications established for this job, with the following exceptions:

Performance checker: _____ Date: _____

Date	_____
Designed	_____
Drawn	_____
Checked	_____
Approved	_____
Title	_____

GRASSED WATERWAY – 412B
STONE CENTER
